driade

Fondata nel 1968, Driade ha raggiunto immediatamente un posizionamento estremamente riconoscibile nella fascia più esclusiva del mercato del design.

La reputazione di Driade è inevitabilmente legata a grandi designer e personalità della cultura, autori di icone: Philippe Starck, Ron Arad, Fabio Novembre, Patricia Urquiola, Rodolfo Dordoni, Konstantin Grcic, Antonia Astori, Enzo Mari, Alessandro Mendini, Borek Sipek, per citarne alcuni.

Una collezione che copre l'intera abitazione, da oggetti d'arte a strumenti per l'utilizzo quotidiano, oltre ad arredi per abitazioni uniche nel loro genere, giardini meravigliosi, uffici non convenzionali e spazi pubblici spettacolari.

Da quella stagione in cui il design ha determinato una nuova corrente di pensiero, funzione ed immagine, Driade ne è uno dei grandi oratori, capace di coniare in anticipo una koiné compresa a tutte le latitudini proprio in quanto scritta da lingue e linguaggi diversi.

Se fosse una città sarebbe New York o Londra o la Roma vissuta dal Caravaggio o più semplicemente la Milano della Famiglia Astori. Oggi abita in tante città, nelle dimore più esclusive o in quelle più stylish, provocando quel sinuoso equilibrio tra coerenza e cambiamento, tra rottura e cultura, seguendo quel mito della progettazione che va "dal cucchiaino alla città", in una collezione divenuta lifestyle.

Dopo cinque decenni, Driade rimane coerente con tale filosofia e gioia di vivere.

Driade rappresenta un mix eclettico di Rock, Pop, Sexy, Sofisticato e Sperimentale.

Ecco perché Driade è LABORATORIO ESTETICO!

Dal 2013, l'azienda entra a far parte di ItalianCreationGroup, polo del lusso Italiano dell'home design.

L'azienda è parte di Altagamma, la fondazione che riunisce dal 1992 le imprese dell'alta industria culturale e creativa che promuovono nel mondo l'eccellenza, l'unicità e lo stile di vita italiani.

driade

Founded in 1968, Driade quickly gained a well-recognised positioning in the High Luxury segment of the branded design furniture market.

Driade's reputation is linked to eminent designers and cultural personalities, authors of many icons: Philippe Starck, Ron Arad, Fabio Novembre, Patricia Urquiola, Rodolfo Dordoni, Konstantin Grcic, Antonia Astori, Enzo Mari, Alessandro Mendini, Borek Sipek among others.

The collection covers the whole home and ranges from objects of art to daily use tools, furniture for one of a kind houses, marvelous gardens, smart office and flamboyant public spaces.

From a season in which design determined a new trend in terms of mindset, function and image, Driade was one of the greatest representatives, being the first to invent a koiné that is understood at any latitude because written in different languages and codes.

If it were a city, it would be New York, London or even Rome at the time of Caravaggio, or more simply the Milano of the Astori Family. It now lives in many cities, in the most exclusive or stylish abodes, giving rise to a sinuous balance between coherence and change, break and culture, following the myth of design that goes "from the spoon to the town", in a collection that has become lifestyle.

After five decades Driade remains consistent by following this philosophy and joie de vivre.

Driade is an eclectic mix made of Rock, Pop, Sexiness, Sophistication and Experimentation.

That's why Driade is LABORATORIO ESTETICO!

Since 2013, the company has been part of ItalianCreationGroup, a luxury holding that operates in Home Design. The company is part of Altagamma, the Foundation that gathers High-End Italian Cultural and Creative Companies, recognized globally as authentic ambassadors of Italian style.

LA FRANCESCA
by Lievore, Altherr,
Molina 2016

Sedia

Gambe in legno massello di frassino ebanizzato o frassino naturale. Scocca in poliuretano Baydur®. Imbottitura interna in PU flessibile. Rivestimento fisso in tessuto o pelle. E' possibile realizzare la parte interna ed esterna in due diverse categorie di tessuti e pelli; il prezzo finale da considerare è quello della categoria superiore tra quelle scelte. Uso solo interno.

Chair

Legs in ebonized or natural solid ash wood, Baydur polyurethane seat. Inside padding in flexible polyurethane. Fixed leather or fabric cover. It is possible to supply the inside and the outside part in two different categories of fabrics; the total price should be considered the one in the higher category between the chosen ones. Indoor use only.

Sedia

Struttura in poliuretano flessibile con inserto metallico. Rivestimento fisso in pelle. E' possibile realizzare la parte interna ed esterna in due diverse categorie di pelli; il prezzo finale da considerare è quello della categoria superiore tra quelle scelte. Il rivestimento esterno puo' essere realizzato nella categoria ZS. Uso solo interno.

Chair

Flexible polyurethane structure with metal insert. Leather fixed cover. It is possible to supply the inside and the outside part in two different categories of leathers; the total price should be considered the one in the higher category between the chosen ones. The outer cover can be supplied in ZS category. Indoor use only.

Pouf/Contentitore

Pouf realizzato in due parti separabili tra loro per consentire l'accesso al contenimento ricavato nella base di appoggio a terra. La seduta è realizzata in poliuretano integrale morbido colorato in massa nelle varianti nero, rosso e blu. La base di appoggio è realizzata in polietilene colorato in massa nelle varianti nero, rosso e blu. Possibilità di aggiungere alla base di appoggio delle ruote pivotanti per spostare facilmente il pouf. Uso interno/esterno.

Pouf/Container

Pouf made in two parts that can be separated from each other to allow access to the storage compartment in the floor-standing base. The seat is made of soft integral polyurethane coloured en masse in black, red and blue. The support base is made of mass-coloured polyethylene in black, red and blue. Possibility of adding pivoting wheels to the support base to move the pouf easily. Indoor/outdoor use.

Poltrona

Poltrona con struttura interna in pannelli di legno multistrato e gomme viscoelastiche con densità differenziata per ottenere il massimo comfort di seduta. Caratteristica della poltrona è la discontinuità del piano di seduta con un "taglio" verticale funzionale a permettere profondità di seduta e a creare una sorta di bracciolo su entrambi i lati. Rivestimento fisso in tessuto.

Armchair

Armchair with an internal structure made of multilayer wood panels and viscoelastic rubbers with differentiated density for maximum seating comfort. Characteristic feature of the armchair is the discontinuity of the seating surface with a vertical "cut" functional to allow seating depth and to create a sort of armrest on both sides. Fabric fixed cover.

by Fabio Novembre
2019**Poltrona**

Poltrona composta da volumi di dichiarata derivazione architettonica e dalla geometria rigorosa, caratterizzata dall'inclinazione e dal bracciolo sospeso. Il fusto è costruito in abete e la seduta resa confortevole da cinghie elastiche. L'imbottitura è realizzata con schiume poliuretaniche a densità differenziata. Il rivestimento fisso in velluto Loira definisce i volumi con cuciture ribattute doppie. Disponibile in quattro varianti di colore. Uso solo interno.

Armchair

Composed of volumes of a declared architectural derivation and rigorous geometry, characterised by the angle and suspended armrest. The frame is made of fir and the seat is made comfortable by elastic straps. The upholstery is made of polyurethane foams with different densities. The fixed fabric cover defines the volumes with double riveted seams. Indoor use only.

BLACK IS THE
NEW GREEN
by Fabio Novembre
2021

Poltrona

Il materiale con il quale è realizzata la poltrona Nemo, deriva da riciclo industriale proveniente da scarti di produzione interna, e pertanto controllati, e da riciclo post consumo vale a dire da prodotti smaltiti con raccolta differenziata - come l'esempio di bottiglie e contenitori in PET - e riciclati dando così vita a nuovi oggetti.

Armchair

The armchair Nemo is made of material which comes from industrial recycling, partly from internal production waste, and therefore controlled, and partly from post-consumer recycling, i.e. from products disposed of with separate collection - such as PET bottles - and recycled thus giving life to new objects.

NEMO CUSTOM

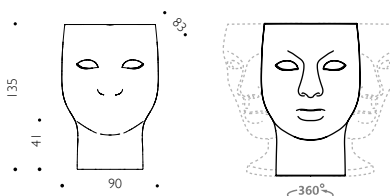

by Fabio Novembre
2021

Poltrona

Le Nemo Custom sono eco-friendly perchè realizzate con l'utilizzo di vernici di nuova generazione. Driade continua la sua ricerca verso una produzione che preveda un sempre minore impatto ambientale grazie all'impiego di vernici acriliche opache all'acqua che conferiscono al prodotto una particolare resistenza all'usura, alla luce e agli agenti atmosferici oltre ad ottenere un aspetto estetico, e al tatto, morbido e "setoso". Infinite le combinazioni possibili per personalizzare la propria Nemo scegliendo il colore preferito per l'esterno della poltrona e decidendo se mantenere l'interno dello stesso colore oppure sceglierlo in una versione neutra: nero o bianco.

Armchair

Nemo Custom are eco-friendly because they are made using new generation paints. Driade continues its research towards a production that foresees the lowest environmental impact thanks to the use of water-based matt acrylic paints that give the product a particular resistance to the use, to the light and to atmospheric agents as well as an aesthetic appearance, a soft and "silky" touch. There are countless possible combinations to personalise your Nemo by choosing your favourite colour for the outside of the armchair and deciding whether to keep the inside of the same colour or choose a neutral version: black or white.

Divani componibili

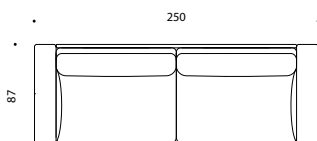

Struttura metallica di base in tubolare di acciaio e cinghiatura elastica, piedi in trafilato di acciaio il tutto verniciato a polveri poliestere nel colore peltro bronzato. Schienali in multistrato di legno sagomati a "saponetta". Imbottitura degli schienali e dei cuscini di seduta in gomme poliuretaniche e piuma d'oca, rivestimento sfoderabile in tessuto o pelle. Ogni codice identifica il prodotto completo rivestito con un'unica variante di tessuto o pelle. La struttura, la cinghiatura elastica e la cuscineria possono anche essere rivestiti con diverse varianti di tessuto o pelle, prezzo su richiesta. Uso solo interno.

Sectional sofa

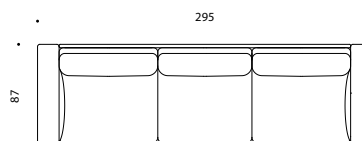

Sofa with modular elements made of a metal base structure in tubular steel and elastic belts, feet in drawn steel all painted with polyester powders in bronzed pewter color. Back panels in wood plywood soap-shaped. Padding of seatbacks and seat cushions in polyurethane and goose down rubbers, removable covers in fabric or leather. Each code identifies the complete product coated with a single variant of fabric or leather. The structure, the elastic belts and the cushions can be ordered in different variants of fabric or leather, price upon request. Indoor use only.

Divani componibili

Struttura in legno massello di abete e pannello in multistrato, piedino di appoggio a terra in plastica. La struttura nei suoi componenti, schienale, base e bracciolo viene completata da una cinghiatura elastica per ottenere il massimo comfort. Tutte le imbottiture sono costituite da gomme poliuretatiche a densità variabile e resinati con grammatura differenziata. Rivestimento in tessuto sfoderabile o in pelle fisso. Uso solo interno

Sectional sofa

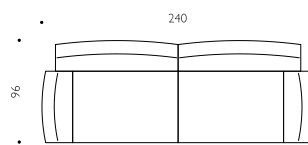

Made of a solid fir wood structure and multilayer panel, plastic foot. The structure in its components, back, base and armrest is completed by an elastic belt for maximum comfort. All upholstery consists of polyurethane rubbers with variable density and resin with different weight. Removable fabric or fixed leather cover. Indoor use only.

Scrivania

Scrivania costituita da una struttura a quattro gambe in lamiera pressopiegata verniciata a polvere poliestere nel colore nero opaco ed un piano in particelle di fibra di legno verniciato nei colori bianco o nero con finitura opaca. Una parte del piano può essere aperta a "ribalta" per avere accesso ad un "vasca" di contenimento predisposta con asole per il passaggio delle prese elettriche e dei cavi di connessione al pc. Traversi di collegamento delle gambe in faggio laccato nei colori bianco o nero in abbinamento al piano. Uso solo interno.

Desk

Desk with a four-leg frame made of press-bent sheet metal painted with polyester powder in matt black and a top made of wood fibre particles painted in white or black with a matt finish. One part of the top can be opened "flip" to gain access to a storage "basin" prepared with slots for the passage of electrical sockets and PC connection cables. Leg connecting crosspieces in beech lacquered in white or black to match the top. Indoor use only.

 L. 110 P. 61 H. 74,5; P.L. 35 Kg.

Tavolini

Tavolini realizzati in tre differenti dimensioni contraddistinti da un "inusuale" appoggio a terra su tre gambe. Gli elementi distintivi del tavolino sono un piano con una forma morbida ed arrotondata e le gambe di generoso diametro. Il piano è realizzato in mdf con spessore 30mm. con bordo sagomato a "saponetta" ed angoli arrotondati, gambe in legno massello tornito di diametro 95mm., con la parte in appoggio a terra arrotondata a semisfera. La finitura è una laccatura lucida in tre varianti di colore nelle tinte pastello. Uso solo interno.

Coffee tables

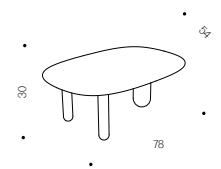

The collection is completed by a series of coffee tables in three different sizes, each with an unusual three-leg base. The distinctive features of these small tables are the soft, rounded shape of the MDF top with a shaped edge, and by the generous diameter of the turned solid wood legs. The top is made of MDF with a thickness of 30mm. with "soap" shaped edge and rounded corners, legs in turned solid wood with a diameter of 95mm, with the part resting on the ground rounded into a hemisphere. The finish is a glossy lacquer proposed in three pastel shades. Indoor use only.

CONTENITORI/*CABINETS*

ERCOLE E AFRODITE

by Driade Lab
2014

Contenitori

Sistema di contenitori modulari aggregabili posizionati su un basamento in agglomerato di particelle di pioppo con rinforzo in tubolare di acciaio inserito all'interno, con finitura in legno di rovere sbiancato o rovere tinto grigio. Struttura dei contenitori in listellare laccato opaco nei colori bianco o nero. Moduli con anta a libro o con anta a battente. Moduli a cassettono con vassoio interno. Frontali realizzati in poliuretano ad alta densità laccati opaco nei colori bianco o nero. Uso solo interno.

Cabinets

Modular combinable box system on a base made of poplar chipboard reinforced with tubular steel inserted inside, with bleached oak or grey painted oak finish. Structure of the containers in wooden strips, matt lacquering in black or white. Modules with folding wing or hinged doors. Modules with pull-out drawers and internal tray. Front made of high density polyurethane, matt lacquering in white or black color. Indoor use only.

HIDALGO
by Driade Lab
2021

Contenitore

L'esterno del mobile è impiallacciato con tranciato di legno nelle finiture Multilaminare Fiammato e Multilaminare Rigato Mosso. La versione verniciata è prevista in due varianti: laccata monocromatica in cinque differenti colori o laccata con un effetto sfumato di due colori e due diverse combinazioni. In tutte le versioni il lato interno è placcato con laminato nero finitu a soft. L'inusuale struttura di supporto è realizzata con un tubo in acciaio verniciato colore nero o acciaio inox lucidato. Uso solo interno.

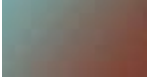

Cabinet

The exterior of the cabinet is veneered with wood veneer in the Flamed Multilaminar and Rigato Mosso Multilaminar finishes. The painted version is available in two versions: monochromatic lacquered in five different colors or lacquered with a shaded effect of two colors and two different combinations. In all versions the inside is plated with black laminate with a soft finish. The unusual support structure is made with a black painted steel tube or polished stainless steel. Indoor use only.

LOVE
by Fabio Novembre
2020

Contenitore

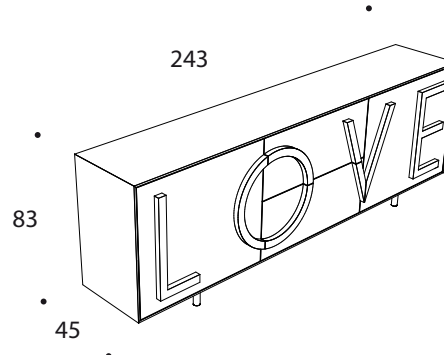

LOVE è un contenitore con due ante laterali a battente e ripiano interno spostabile, con due cassettoni centrali ad estrazione totale. Struttura realizzata in MDF laccato esternamente ed internamente. Scritta LOVE in rilievo con funzione di maniglia realizzata in MDF laccato facilmente sostituibile personalizzando in questo modo il contenitore. Piedini cilindrici regolabili diametro 3,5 cm. ed altezza 10 cm. dello stesso colore della struttura. Uso solo interno.

Cabinet

LOVE is a cabinet with two side hinged doors, with a moveable internal shelf, and with two central full-extension drawers. Structure made of MDF laquered both externally and internally. LOVE lettering in relief as a handle made of lacquered MDF, easily replaceable, thus personalising the storage unit. Adjustable cylindrical feet diameter 3.5 cm. and height 10 cm. in the same colour as the structure. Indoor use only.

VENUS

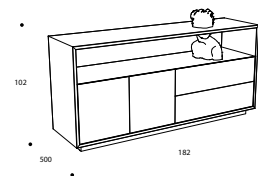

by Fabio Novembre
2023

Madia

Madia realizzata con pannelli in fibra di legno a media densità dello spessore di 25mm. Finitura laccata opaco nei colori nero traffico e rosso vino, zoccolo di appoggio a terra in finitura a specchio con piedini di regolazione per la messa a livello. Parte frontale composta da due ante a battente con smusso a 45° con ripiano interno spostabile e due cassettoni a totale estrazione con smusso a 45°. Sistema di apertura delle ante e dei cassettoni mediante push-pull. Vano a giorno con inserita una scultura in marmo ricomposto bianco.

Sideboards

Sideboard made of 25 mm-thick medium-density wood fibreboard. Matt lacquered finish in traffic black and wine red, floor-standing plinth in mirror finish with adjustment feet for leveling. Front composed of two hinged doors with 45° bevel with movable internal shelf and two full-extension drawers with 45° bevel. Door and drawer opening system by means of push-pull. Open compartment with inserted white reconstituted marble sculpture

2022**Espositore/Libreria**

Espositore / Libreria freestanding con un sistema girevole a terra per un comodo accesso a tutti i vari ripiani di appoggio disposti a vari livelli sui quattro lati dell'espositore. L'espositore è composto da elementi orizzontali e verticali in massello di rovere rigatino/mezza fiamma realizzati mediante l'unione di doghe dello spessore sottile di 10mm. con un bordo morbido arrotondato.

Display unit/Bookcase

Freestanding display unit/bookcase with a revolving floor system for convenient access to the shelves arranged on the four sides of the display unit. The display unit is composed of horizontal and vertical elements in solid ribbed/half-flame oak made by joining thin 10 mm thick staves with a soft rounded edge.

Specchio

Specchio a muro realizzato mediante stratifica di uno specchio da 5mm. ed un vetro da 5mm. extrachiaro con stampa digitale sfumata. Lo specchio viene supportato da un pannello in mdf sp.18mm. verniciato nero opaco rientrante dal profilo perimetrale dello specchio, tutti gli spigoli sono arrotondati. Sistema di aggancio dello specchio al muro regolabile in altezza per un facile posizionamento e messa in bolla. Uso solo interno.

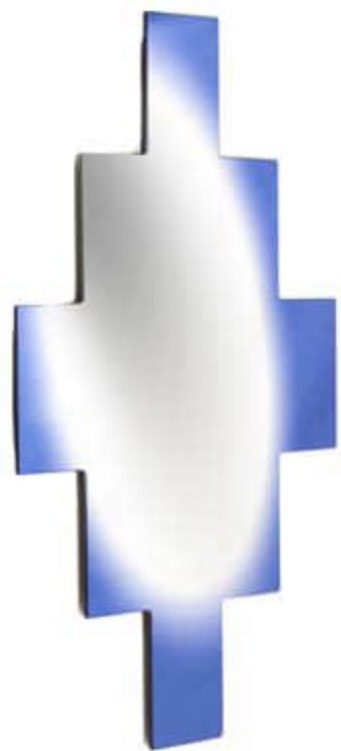

Mirror

Wall mirror made by layering a 5mm mirror and an extra-clear 5mm glass with shaded digital print. The mirror is supported by an 18mm. thick mdf panel painted matt black, recessed from the mirror perimeter profile. All edges are rounded. The mirror attachment system to the wall is adjustable in height for easy positioning and levelling.

Lampada da tavolo

Lampada portatile con luce diretta a LED, utilizzabile anche come centrotavola. Realizzata in materiale plastico ABS colorato in massa, il diffusore è in PMMA trasparente opalino. Disponibile nei colori bianco, nero e rosso porpora. Un pulsante touch trasparente permette l'accensione, lo spegnimento e la regolazione dell'intensità della luce oltre ad indicare il livello di carica. La lampada è alimentata da una batteria della durata di 8 ore e ricaricabile mediante cavo con presa USB. Uso interno/esterno. Made in Italy.

Table lamp

Portable lamp with direct LED light also to be used as a centrepiece. Made of mass-coloured ABS plastic, the diffuser is of transparent opal PMMA. Available in white, black and purple red. A transparent touch button allows switching on and off and adjusting the light intensity as well as indicating the charge level. The lamp is powered by an 8hour battery and rechargeable via cable with USB socket. Indoor/outdoor use. Made in Italy.

Pouf/Contentitore

Pouf realizzato in due parti separabili tra loro per consentire l'accesso al contenimento ricavato nella base di appoggio a terra. La seduta è realizzata in poliuretano integrale morbido colorato in massa nelle varianti nero, rosso e blu. La base di appoggio è realizzata in polietilene colorato in massa nelle varianti nero, rosso e blu. Possibilità di aggiungere alla base di appoggio delle ruote pivotanti per spostare facilmente il pouf. Uso interno/esterno.

Pouf/Container

Pouf made in two parts that can be separated from each other to allow access to the storage compartment in the floor-standing base. The seat is made of soft integral polyurethane coloured en masse in black, red and blue. The support base is made of mass-coloured polyethylene in black, red and blue. Possibility of adding pivoting wheels to the support base to move the pouf easily. Indoor/outdoor use.

NEMO BLACK IS THE NEW GREEN

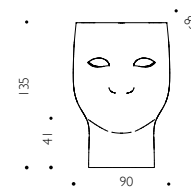

by Fabio Novembre
2021

Poltrona

Il materiale con il quale è realizzata la poltrona Nemo, deriva da riciclo industriale proveniente da scarti di produzione interna, e pertanto controllati, e da riciclo post consumo vale a dire da prodotti smaltiti con raccolta differenziata - come l'esempio di bottiglie e contenitori in PET - e riciclati dando così vita a nuovi oggetti.

Armchair

The armchair Nemo is made of material which comes from industrial recycling, partly from internal production waste, and therefore controlled, and partly from post-consumer recycling, i.e. from products disposed of with separate collection - such as PET bottles - and recycled thus giving life to new objects.

L. 90 P. 83 H. 135; seduta H. 41; P.L. 35 Kg; V. 1,08 mc

NEMO CUSTOM

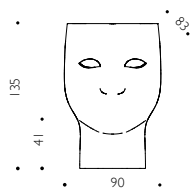

by Fabio Novembre
2021

Poltrona

Le Nemo Custom sono eco-friendly perchè realizzate con l'utilizzo di vernici di nuova generazione. Driade continua la sua ricerca verso una produzione che preveda un sempre minore impatto ambientale grazie all'impiego di vernici acriliche opache all'acqua che conferiscono al prodotto una particolare resistenza all'usura, alla luce e agli agenti atmosferici oltre ad ottenere un aspetto estetico, e al tatto, morbido e "setoso". Infinite le combinazioni possibili per personalizzare la propria Nemo scegliendo il colore preferito per l'esterno della poltrona e decidendo se mantenere l'interno dello stesso colore oppure sceglierlo in una versione neutra: nero o bianco.

Armchair

Nemo Custom are eco-friendly because they are made using new generation paints. Driade continues its research towards a production that foresees the lowest environmental impact thanks to the use of water-based matt acrylic paints that give the product a particular resistance to the use, to the light and to atmospheric agents as well as an aesthetic appearance, a soft and "silky" touch. There are countless possible combinations to personalise your Nemo by choosing your favourite colour for the outside of the armchair and deciding whether to keep the inside of the same colour or choose a neutral version: black or white.

LORD YI
by Philippe Starck
Palomba
2017

Tavolo

Base in fusione di alluminio verniciato di colore grigio alluminio o nero antracite e colonna in alluminio anodizzato di colore argento o nero. Piano in San di colore avorio, piano in marmo bianco Carrara o nero Marquina oppure in SAN con finitura superficiale tramite rasatura a mano con spatola di un composto a base di argilla colorato in massa. Le sfumature dell'applicazione manuale caratterizzano l'estetica del prodotto. Il trattamento finale rende il prodotto idrorepellente ed antimacchia. Sono disponibili i colori: champagne, avorio, lava e rosso. Uso interno/esterno. È disponibile a richiesta un contrappeso in cemento di Kg 9 (cod.D174300451154).

Table

Grey or black anthracite painted aluminum base and grey or black anthracite anodized aluminum column. Ivory San, white Carrara or black Marquina marble or SAN top with a surface finish hand made shaving a spatula of a colored clay-based compound. The nuances of the manual application characterize the aesthetics of the product. The final treatment makes the product water-repellent and stain-resistant. Available in the colors: champagne, ivory, anthracite grey and red. Indoor/outdoor use. A 9 Kg. cement counterbalance can be available on demand (code D174300451154).

I colori sono indicativi. Non è possibile garantire uniformità di tono nella tintura dei lotti di tessuto. Resta inteso che lievi differenze di colore verranno accettate al momento dell'ordine.

The colors are just indicative. Actually a steady tone of lots cannot be guaranteed. It remains understood that any slight colour difference will be accepted in case an order is placed.

LIBRO DELLE FINITURE 2023
FINISHES BOOK 2023

COMPOSITI/COMPOSITES

Nella scienza dei materiali un “materiale composito” è un materiale eterogeneo, cioè costituito da due o più fasi con proprietà fisiche differenti le cui proprietà finali sono significativamente migliori di quelle delle fasi che lo costituiscono sia dal punto di vista meccanico che estetico. I primi materiali compositi furono i mattoni, il calcestruzzo ed il compensato sino ad arrivare ai nostri giorni con i recenti compositi a matrice polimerica, metallica, ceramica ed i compositi strutturati come i pannelli a sandwich.

In the science of materials, a “composite material” is heterogeneous, consisting, that is, of two or more phases with different physical properties, the final properties of which are significantly better than those of the phases that comprise it, from both the mechanical and the aesthetic perspectives.

The first composite materials were bricks, concrete and plywood; then, if we move on to more recent times, we have the newer composites, which are polymer-, metal- and ceramic-based and structured composites such as sandwich panels.

FINITURA CEMENTO/CEMENT FINISH

Impasto realizzato con cemento, additivi-resine, sabbie di varie granulometrie e fib e di vetro. Il composto ottenuto permette di ridurre il peso e mantenere la durabilità del manufatto. A stagionatura avvenuta gli elementi vengono trattati con prodotti protettivi ed impermeabili. Anche in un singolo pezzo la struttura, la tonalità e la porosità non saranno mai completamente uniformi, piccole formazioni di pori e bande, minime differenze di colore o leggere fenditure fanno parte delle caratteristiche naturali del materiale e contribuiscono al pregio ed al valore individuale di ogni singolo pezzo.

A mix made with cement, additives-resins, sands with various particle sizes and glass fibres. The compound obtained enables the weight to be reduced and the durability of the product to be maintained. When seasoning is completed, the elements are treated with protective and impermeable products. Even in a single piece, the structure, colour tone and porosity will never be completely uniform; small formations of pores and bands, minor differences in colour and slight fissures are all part of the natural characteristics of the material and contribute to the quality and value of each individual piece.

FINITURA ARGILLA/CLAY FINISH

Impasto realizzato con terre colorate in pasta additate con cariche minerali a granulometria controllata e legante polimerico in dispersione acquosa, finitu a superficiale matt con protettivo impermeabilizzante. Anche in un singolo pezzo la struttura, la tonalità e la porosità non saranno mai completamente uniformi, piccole formazioni di pori e bande, minime differenze di colore o leggere fenditure fanno parte delle caratteristiche naturali del materiale e contribuiscono al pregio ed al valore individuale di ogni singolo pezzo.

A mix made with coloured earth in paste form, added to which are mineral fillers with controlled granulometry and polymer binder in aqueous dispersion, matt surface finish with protective waterproofing. Even in a single piece, the structure, colour tone and porosity will never be completely uniform; small formations of pores and bands, minor differences in colour and slight fissures are all part of the natural characteristics of the material and contribute to the quality and value of each individual piece.

COMPOSITI/COMPOSITES

CRISTALPLANT[®] /CRISTALPLANT[®]

Materiale brevettato composto per la maggior parte da cariche minerali di triidrossidi di alluminio di elevata purezza legati da resine di origine vegetale Biobased[®]: l'origine della resina è ricavata dal mais. È conosciuto per la bellezza simile alla pietra naturale dall'effetto soft touch, si presta a realizzare forme organiche senza giunti, antibatterico perché fotocatalitico.

A patented material mostly composed of mineral fillers of high-purity aluminium trihydroxide bound by Biobased[®] resins of plant origin: the resin is obtained from maize and is renowned for its beauty, which is similar to natural stone with a soft touch effect, lending itself to the creation of organic forms without joints; as it is photocatalytic, it is antibacterial.

LAMINATO/LAMINATE

Materiale costituito da un cuore a base di fogli di carta Kraft impregnata con resine termoindurenti e da uno strato decorativo superficiale composto da un foglio di carta stampata impregnato con resine aminoplastiche il tutto sottoposto all'azione combinata di alta pressione ed elevate temperature. Il prodotto che si ottiene è un materiale di eccellente qualità per le sue proprietà funzionali ed estetiche, facile da pulire, garantisce un'ottima resistenza alle macchie ed agli agenti chimici ed una discreta resistenza ai graffi.

A material consisting of a heart made of sheets of Kraft paper impregnated with thermosetting resins and a decorative surface layer composed of a sheet of printed paper impregnated with aminoplastic resins, all of which undergoes the combined action of high pressure and high temperatures. The product that is obtained is a material of excellent quality on account of its functional and aesthetic properties; it is easy to clean, guarantees excellent resistance to stains and chemical agents and fair resistance to scratching.

VETRORESINA/ FIBREGLASS

Materiale costituito da un tessuto in fibra di vetro che costituisce la parte strutturale e da resina poliesteri termoindurente che lega le varie fibre consentendo di realizzare manufatti con un'elevata resistenza meccanica, chimica ed alla corrosione, non necessita di una particolare manutenzione. È un materiale estremamente versatile potendo assumere qualsiasi forma dalle più morbide ed organiche a quelle più complesse ed estreme lasciando assoluta libertà alla creatività.

A material consisting of a glass fibre fabric that forms the structural part and thermosetting polyester resin, which bonds together the various fibres enabling products to be made with a high mechanical and chemical resistance and to corrosion; it does not require any particular maintenance. It is an extremely versatile material and is able to take on any form, from the softest and most organic to the more complex and extreme, leaving total freedom for creativity.

COMPOSITI/COMPOSITES

MDF LACCATO/LACQUERED MDF

“Medium-density fibreboard” materiale proveniente dalla lavorazione degli scarti del legno preferibilmente di conifera. Attraverso la macinazione degli scarti del legno si ottiene una pasta che additivata con resine viene pressata a temperatura elevata (fino a 210 °C) ottenendo un pannello compatto perfettamente liscio e privo di ondulazioni. La superficie del pannello di mdf grezzo viene “laccata” con una vernice poliesterica come base di fondo ed una vernice poliuretana superficiale per un risultato coprente e omogeneo in finitura opaca o lucida. Il laccato garantisce una buona resistenza alla luce ed alle macchie grazie al film protettivo assicurato dalla vernice poliuretana.

“Medium-density fibreboard”, a material made from processing waste wood, preferably conifers. By grinding the waste wood, a paste is obtained that, when resins are added, is pressed at very high temperatures (up to 210°C) obtaining a perfectly smooth and compact panel without undulations. The surface of the untreated MDF panel is “lacquered” with a polyester varnish as an undercoat and a surface polyurethane varnish for a covering and homogeneous result in matt or gloss finish. The lacquer guarantees good resistance to light and stains, thanks to the protective film guaranteed by the polyurethane varnish.

LEGNO MASSELLO/SOLID WOOD

Per legno massello si intende quella parte di legno ricavata dal tronco dell'albero, in particolare dal durame, la parte centrale di un tronco. Il legno massello "non ha difetti" e quelli che potrebbero sembrare dei difetti non sono altro che caratteristiche morfologiche del legno massello, ovvero, qualità che gli conferiscono il meritato titolo di "materiale unico ed irripetibile", parliamo di piccole crepe o fessure, nodi e variazioni di colore, caratteristiche della sua totale autenticità. Scegliere un materiale naturale comporta anche il saper accettare le piccole imperfezioni e la sensazione di vissuto che questo comporta. La superficie in legno ha una buona resistenza alla macchia ma una scarsa resistenza al graffio, trattandosi di un materiale naturale, viene influenzata dall'esposizione alla luce nel tempo.

Solid wood is understood to be that part of the wood that is obtained from the trunk of a tree, particularly from the duramen, the central part of a trunk. Solid wood "has no defects", indeed, what might appear to be defects are none other than the morphological characteristics of the solid wood, in other words, qualities that confer upon it the well deserved title of "unique, unrepeatable material", namely small cracks or fissures, knots and colour variations, characteristics of its total authenticity. Choosing a natural material also involves being able to accept the minor imperfections and the lived-in sensation that this involves. The wood surface has good resistance to staining but limited resistance to scratching and, being a natural material, is affected by exposure to light over time.

MOGANO/MAHOGANY

Il colore tipico è un rosso-bruno, le principali caratteristiche sono una elevata resistenza meccanica con una buona lavorabilità e stabilità. Il mogano è un legno pregiato e costoso da sempre utilizzato nell'ebanisteria di alta qualità e nei mobili di pregio.

Its typical colour is reddish-brown and its main characteristics are a high mechanical resistance with good machinability and stability. Mahogany is a precious and expensive wood, long used for high-quality cabinet-making and in valuable furniture.

FRASSINO EBANIZZATO/EBANISED ASH

Il colore tipico è un biondo chiaro con leggere sfumature tendenti al verde, le principali caratteristiche sono una buona resistenza meccanica e di lavorabilità con una buona attitudine alla verniciatura grazie alla marcata venatura e porosità. Il trattamento di "ebanizzazione" del frassino consiste nel tingere il legno con dei mordenti all'acqua di colore nero con una leggera sfumatura rossastra così da riprodurre il colore dell'ebano mantenendo il "poro aperto" del legno per evidenziare la caratteristica venatura.

Its typical colour is pale blond with light tones tending towards green, the main characteristics of which are good mechanical resistance and machinability with a good response to painting, thanks to its marked grain and porosity. The "ebanisation" treatment of ash consists of dyeing the wood with black water-based mordants with a slight reddish tone in order to reproduce the colour of ebony, maintaining the "open pores" of the wood to highlight the characteristic grain.

LEGNO MASSELLO/SOLID WOOD

NOCE CANALETTO/CANALETTO WALNUT

Conosciuto anche come noce americano, è ricco di tonalità e sfumature nel tono del marrone che variano dal bruno al moka sino ad arrivare al nero, la struttura può variare dal “fiamma o” al “rigato” e la combinazione del colore con la struttura crea un legno dalle trame eleganti e preziose.

Also known as American walnut, it is rich in the shades and tones of brown, which actually vary from mocha to darker brown, even to black; the structure may vary from “flamed” to “striped” and the combination of the colour with the structure creates a wood with elegant, precious patterns.

ROVERE FOSSILE/FOSSIL OAK

È un “rovere di palude” ottenuto dalla scoperta e dall'estrazione di antichi tronchi di rovere immersi per molti secoli sotto il letto di fiumi o laghi, a contatto continuo con l'acqua e la terra in un ambiente anaerobico. Sotto l'influenza dell'acqua, della sabbia, della terra, e con l'influenza della pressione da queste esercitata, si sono generate reazioni chimiche che attraverso la formazione di sali minerali hanno trasformato la struttura del legno rendendolo più simile alla pietra. Il colore può variare molto con tonalità che virano dal marrone-oro al nero intenso. È un materiale che viene dalla notte dei tempi, raro, naturale, molto prezioso, unico ed inimitabile.

This is a “swamp oak” obtained from the discovery and extraction of ancient oak trunks that have been immersed for many centuries in the beds of rivers or lakes, in continuous contact with the water and the earth in an anaerobic environment. Under the influence of water, sand and earth, and with the effect of the pressure exerted by these, chemical reactions have been produced that, through the formation of mineral salts, have transformed the structure of the wood, making it more similar to stone. The colour may vary considerably, with tones ranging from golden brown to intense black. It is a material that has come from the depths of time; it is rare, natural, very precious, unique and inimitable.

FAGGIO/BEECH

È il più diffuso legno utilizzato nell'arredamento, la sua durezza unita alla resistenza alla flessione, agli urti, alla compressione ed alla torsione ne fanno uno dei legni più interessanti dal punto di vista meccanico. Il colore è chiaro tendente al rosato, con tonalità che vanno dal bianco al bruno-rossastro con una punta di giallo.

This is the most widely used wood in furnishing; its hardness, together with its resistance to bending, impact, compression and torsion, make it one of the most interesting woods from the mechanical point-of-view. Its colour is pale, tending towards pink, with tones ranging from white to reddish-brown with a hint of yellow.

LEGNO MASSELLO/SOLID WOOD

ROVERE/OAK

E' la quercia uno degli alberi più presenti nei nostri boschi, di colore bruno chiaro che vira al giallo, tende a schiarire col tempo. E' un legno che si identifica facilmente in quanto ha una venatura caratteristica, lo troviamo sia "fiamma o" che "rigatino" a seconda del tipo di taglio.

Oak is one of the most common trees in our woods; pale brown in colour, turning towards yellow, it tends to become lighter in colour with time. It is a wood that is easily identified, as it has a characteristic grain. We find it both "flamed" and "striped", depending on the type of cut.

LEGNO TRANCIATO/*SLICED WOOD*

Per legno “tranciato” si intende il prodotto ricavato dal taglio del tronco dell’albero eseguito parallelamente al suo asse mediante l’utilizzo di “trance” o coltelli”. Si ottengono dei sottili fogli di legno dello spessore di circa 1mm. che riportano fedelmente tutte le caratteristiche di colore e struttura del legno massello. Ci sono varie modalità di tranciatura (all’ italiana, alla francese, sul largo) in funzione di come preliminarmente viene sezionato il tronco. I sottili fogli di legno di una larghezza variabile dai 10 ai 20 cm. vengono “stirati” per renderli perfettamente piani, rifilati sul lato lungo e “giuntati” tra loro a “fil ” o a “colla” per ottenere un unico grande foglio di legno delle dimensioni volute. Sarà l’esperienza dell’artigiano che nella “composizione” dei fogli riuscirà a costruire un insieme esteticamente equilibrato ed armonico.

“Sliced” wood is understood to be the product obtained from cutting the tree trunk parallel to its axis using “shears” or knives”. Thin sheets of wood are obtained with a thickness of around 1mm that faithfully bear all the characteristics of colour and structure of the solid wood. There are various methods of slicing (Italian-style, French-style, broad cut) depending on how the trunk is sectioned at the preliminarily stage. The thin wooden sheets, with a width varying between 10 and 20 cm, are “stretched” to make them perfectly flat trimmed along the long side and “sewn together” with “thread” or “glue” to obtain a single large wooden sheet of the desired dimensions. It is thanks to their own experience that in the “composition” of the sheets the artisans succeed in creating an aesthetically balanced and harmonious whole.

MOGANO/*MAHOGANY*

Il colore tipico è un rosso-bruno.

Its typical colour is reddish-brown.

NOCE CANALETTO/*CANALETTO WALNUT*

Il colore ha sfumature nel tono del marrone che variano dal bruno al moka sino ad arrivare al nero.

Its colour has shades of brown, varying from mocha to darker brown, even to black.

LEGNO TRANCIATO/*SLICED WOOD*

ROVERE/*OAK*

Di colore bruno chiaro che vira al giallo.

Pale brown in colour, turning towards yellow.

OLMO/*ELM*

Il colore varia dal beige chiaro sino al bruno cupo cioccolato, addirittura al rossastro.

Its colour ranges from pale beige to dark chocolate brown, even to a reddish tone.

WENGE'/*WENGE*

Di colore bruno scuro variegato da strisce nerastre.

Dark brown in colour with contrasting blackish stripes.

LEGNO TRANCIATO/*SLICED WOOD*

LEGNO PRECOMPOSTO MULTILAMINARE / *MULTILAMINAR PREFORMED WOOD*

Il tranciato "multilaminare" è costituito da molte lamine sottili anche di diverse specie legnose che, dopo essere state colorate singolarmente, vengono impaginate e assemblate così da ottenere dei veri legni masselli dai quali vengono poi ricavati i tranciati finali. Possiamo avere tranciati con struttura "fiamma a" ottenuti mediante taglio del tronco eseguito tangenzialmente agli anelli del tronco o tranciati "rigati" con venature verticali ottenuto da una parte di tronco tagliato perpendicolarmente agli anelli.

"Multilaminar" sliced wood consists of a number of thin sheets, even of different wood species, which, after being coloured individually, are paginated and assemble so as to obtain real solid woods, from which the final slices are obtained. We can have slices with a "flamed" structure, obtained by cutting the trunk tangentially to the rings of the trunk, or sliced "striped" with vertical grains obtained from a part of the trunk cut perpendicular to the rings.

CALEIDOLEGNO FIAMMATO BIANCO E NERO / *FLAMED WHITE BLACK CALEIDOLEGNO*

"Multilaminare" con struttura fiamma a, colore di base bianco con venature nere.

"Multilaminar" with flamed structure, basic colour white with black graining.

CALEIDOLEGNO RIGATO MARRONE / *STRIPED BROWN CALEIDOLEGNO*

"Multilaminare" con struttura rigata, colore di base beige chiaro e venature verticali marrone scuro.

"Multilaminar" with striped structure, basic colour pale beige and vertical dark brown graining.

MATERIALI LAPIDEI/STONE MATERIALS

Da sempre la pietra naturale esercita un grande fascino grazie all'impatto estetico ed alla bellezza della materia stessa. Espressione di un legame con la nostra terra e la nostra cultura, la pietra naturale racchiude in sé milioni di anni di evoluzione geologica e si racconta coniugando storia, sapienza artigianale e moderna tecnologia. Le pietre naturali vantano caratteristiche estetiche inimitabili date dall'intensa espressività della texture, ricca di toni e sfumature, ciò rende ogni lastra unica e irripetibile e, a volte, anche due pezzi della stessa lastra non sono uguali. Eventuali inclusioni e differenze di venatura, colorazione e simmetrie non possono essere previste a priori e sono quindi da considerarsi caratteristica intrinseca del materiale, espressione della sua unicità e prova inconfutabile che si tratti di una pietra veramente naturale.

Natural stone has always been considered especially charming, thanks to the aesthetic impact and beauty of the material itself. The expression of a bond with our land and our culture, natural stone contains millions of years of geological evolution and tells its story combining history, hand-crafting expertise and modern technology. Natural stones boast inimitable aesthetic characteristics, thanks to the intense expressiveness of the textures, rich in tones and shades, making every slab unique and unrepeatably; at times, even two pieces of the same slab are not identical. Any inclusions and differences in veins, coloration and symmetries cannot be predicted and are therefore to be considered as intrinsic characteristics of the material, the expression of its uniqueness and irrefutable proof that it is a truly natural stone./

MARMO BIANCO DI CARRARA/WHITE CARRARA MARBLE

È il marmo per antonomasia: un marmo puro e compatto, esteticamente possiamo definirlo come “un fresco manto nevoso percorso da leggere venature grigie”. Il nostro Bianco di Carrara proviene da una delle cave più rinomate situata sulle propaggini meridionali del Monte Altissimo nelle Alpi Apuane dove Michelangelo Buonarroti nel 1517 veniva ad approvvigionarsi dei marmi per realizzare i suoi capolavori.

This is the quintessential marble: a pure and compact marble, aesthetically we could define it as “a fresh mantle of snow with light grey veins crossing it”. Our Carrara White comes from one of the most famous quarries, located on the southern slopes of Monte Altissimo in the Apuan Alps, where in 1517 Michelangelo Buonarroti came to collect his marble supplies to create his masterpieces.

MARMO MARQUIÑA/MARQUIÑA MARBLE

Il marmo Nero Marquiña è un materiale dal colore nero intenso a fondo molto compatto attraversato da venature irregolari di colore bianco o grigio chiaro, più o meno marcate con andamento diagonale, particolare che conferisce al marmo Nero Marquiña un aspetto originale e mai scontato.

Nero Marquiña marble is a material with an intense black colour with a very compact base crossed by irregular pale white or grey coloured veins, more or less marked, running diagonally, a detail that gives Nero Marquiña marble an original and never predictable appearance.

MATERIALI LAPIDEI/*STONE MATERIALS*

QUARZITE/*QUARTZITE*

La Quarzite Grigia proviene dall' India, è un materiale dal colore grigio che può presentare qualche puntino più scuro, il suo tono è complessivamente chiaro ed omogeneo.della pietra.

Grey quartzite comes from India; it is a material that is grey in colour that can have a few darker dots, overall its tone is pale and homogeneous.

MARMO RICOMPOSTO/*RECOMPOSED MARBLE*

Pietra ricostruita composta da polvere di alabastro e resina realizzata seguendo un processo produttivo artigianale. Ogni manufatto prodotto è completamente rifinito a mano e le irrilevanti imperfezioni che si possono riscontrare sono la testimonianza di un lavoro fatto a mano.

A reconstructed stone composed of alabaster powder and resin created through an artisan production process. Each product made is completely hand-finished and the insignificant imperfections that may occur are evidence of the manual work involved.

VETRI/GLASS

Nobile e prezioso il vetro è un materiale di forte espressività, all'apparenza fragile ma in realtà resistente e in grado di trasmettere sensazioni di inaspettata e stupefacente leggerezza.

Tutti i nostri vetri subiscono il trattamento di tempra che riscalda il vetro ad altissime temperature e lo raffredda repentinamente. Il vetro temprato, in accordo alla normativa europea, assume così una conformazione interna che lo rende cinque volte più resistente del vetro normale e, in caso di rottura totale, si frantuma in minuscoli pezzi non taglienti. Per dare ai nostri vetri colorati opachi o lucidi il colore desiderato è stata messa a punto una vernice che mantiene inalterato il tono di colore applicato ed assicura un'aderenza eccellente sul vetro.

Fine and precious, glass is a highly expressive material with a fragile appearance, but in reality it is tough and capable of conveying feelings of surprising, unexpected lightness. All our glass undergoes tempering treatment, whereby it is heated at high temperatures and cooled rapidly. In accordance with European regulations, tempered glass therefore takes on an internal conformation that makes it five times more resistant than normal glass and, in the event of total breakage, it is shattered into tiny, non-sharp pieces. To give our coloured opaque polished glasses the desired colour, a varnish has been perfected that keeps the colour tone applied unchanged and ensures an excellent adherence to the glass.

VETRO TRASPARENTE/TRANSPARENT

Vetro float chiaro temperato.

Clear tempered float glass.

VETRO LACCATO OPACO/LACQUERED OPAQUE GLASS

Vetro float chiaro temperato con un trattamento di acidatura superficiale per realizzare un "effetto pesca" incredibilmente piacevole al tatto. Verniciatura sul lato inferiore con speciali vernici per garantire una perfetta aderenza al vetro.

Clear tempered float glass with a surface etching treatment to create a "peach effect" that is incredibly pleasant to the touch. Painted on the lower side with special varnishes to guarantee a perfect adherence to the glass.

VETRI/GLASS

VETRO LACCATO LUCIDO/*POLISHED LACQUERED GLASS*

Vetro float chia o temperato. Verniciatura sul lato inferiore con speciali vernici per garantire una perfetta aderenza al vetro.

Clear tempered float glass. Painted on the lower side with special varnishes to guarantee a perfect adherence to the glass.

SPECCHIO/*MIRROR*

Vetro float chia o con deposto un sottile strato di argento ricoperto da una vernice protettiva.

Clear float glass with a thin layer of silver applied, covered by a protective varnish.

VETRO SOFFIATO/*BLOWN GLASS*

Il procedimento per dare una forma al vetro è la soffiatura: libera o a stampo. La tecnica di soffiatura può essere variata utilizzando stampi di ferro, bronzo o legno bagnato. In queste forme viene soffiata la massa vitrea, ripetutamente scaldata, che si modella dilatandosi e sagomandosi. La soffiatura del vetro è un'arte che non ha età.

The procedure for shaping glass is blowing: free or moulded. The blowing technique can be varied by using moulds made of iron, bronze or wet wood. Into these forms the heated glass mass is blown and shaped by expanding. Glassblowing is an ageless art.

METALLI/METALS

I metalli si trovano in natura come minerali nelle rocce e vengono estratti attraverso procedimenti di fusione o elettrolisi. Quando parliamo di metallo facciamo riferimento a lamiere e tubi di acciaio o alluminio sottoposti a trattamenti finali di finitura per garantire un'adeguata protezione superficiale ed ottenere effetti estetici che impreziosiscono con modalità distintive le varie collezioni.

Metals are found in nature as minerals in rocks and are extracted through founding procedures or electrolysis. When we talk about metal we are referring to steel or aluminium plates and pipes that undergo finishing treatments to guarantee adequate surface protection and obtain aesthetic effects that embellish the various collections using distinctive methods.

ACCIAIO VERNICIATO A POLVERE POLIESTERE/STEEL PAINTED WITH POLYESTER POWDER

Acciaio sottoposto a verniciatura in forno industriale nella quale la fase finale di cottura avviene a temperature elevate (circa 170°). La verniciatura a polvere poliestere presenta eccellenti caratteristiche di resistenza ai raggi UV, ottime caratteristiche meccaniche, buona resistenza agli agenti chimici (detersivi, detergenti, olii, acidi leggeri, e alcali diluiti) ed agli agenti atmosferici.

Steel undergoing painting in an industrial furnace in which the final firing phase happens at high temperatures (around 170°). The polyester powder paint has excellent characteristics of resistance to UV rays, excellent mechanical characteristics, good resistance to chemical agents (cleansers, detergents, oils, light acids and diluted alkali) and to atmospheric agents.

ACCIAIO CROMATO/CHROME-PLATED

Acciaio sottoposto ad un trattamento superficiale di cromatura galvanica per ottenere un particolare perfettamente lucido e riflettente mediante immersione del pezzo in una vasca contenente una soluzione elettrolitica di cromo trivalente "ecologico".

Steel undergoing a galvanic chrome-plating surface treatment to obtain a perfectly polished and reflective finish by immersing the piece in a tank containing an "ecological" trivalent chromium electrolytic solution.

METALLI/METALS

ACCIAIO INOX LUCIDO/POLISHED STAINLESS STEEL

Acciaio inossidabile particolarmente resistente alla corrosione sottoposto ad una serie di operazioni di levigatura con grane via via meno aggressive. Quando la superficie è perfettamente liscia, uniforme e priva di graffi con spazzole in cotone il pezzo viene lucidato a specchio.

Stainless steel particularly resistant to corrosion undergoing a series of polishing operations with gradually less aggressive grits. When the surface is perfectly smooth, uniform and without scratches, the piece is mirror polished using cotton brushes.

ALLUMINIO VERNICIATO A POLVERE POLIESTERE/ALUMINIUM PAINTED WITH POLYESTER POWDER

Alluminio sottoposto a verniciatura in forno industriale nella quale la fase finale di cottura avviene a temperature elevate (circa 170°). La verniciatura a polvere poliestere presenta eccellenti caratteristiche di resistenza ai raggi UV, ottime caratteristiche meccaniche, buona resistenza agli agenti chimici (detersivi, detergenti, olii, acidi leggeri, e alcali diluiti) ed agli agenti atmosferici.

Aluminium undergoing painting in an industrial furnace in which the final firing phase happens at high temperatures (around 170°). The polyester powder paint has excellent characteristics of resistance to UV rays, excellent mechanical characteristics, good resistance to chemical agents (cleansers, detergents, oils, light acids and diluted alkali) and to atmospheric agents.

ALLUMINIO ANODIZZATO/ANODISED ALUMINIUM

Alluminio sottoposto ad un processo elettrochimico di "anodizzazione" per ottenere esclusivi effetti cromatici tramite l'aggiunta di pigmenti colorati con una superficie morbida e vellutata particolarmente piacevole al tatto.

Aluminium undergoing an electrochemical process of "anodisation" to obtain exclusive chromatic effects through the addition of coloured pigments with a soft, velvety surface that is particularly pleasant to the touch.

MATERIE PLASTICHE/*PLASTIC MATERIALS*

Il termine "plastica" deriva dalla parola greca "plastikos", che significa adatto per essere modellato riferendosi alla malleabilità o plasticità del materiale durante la produzione quindi può essere fuso, stampato o estruso in una varietà infinita di forme. La "plastica" è un materiale altamente versatile lasciandosi "modificare" in qualsiasi combinazione di proprietà per adattarsi alle molteplici esigenze estetiche o meccaniche.

The term "plastic" derives from the Greek word "plastikos", which means suitable for moulding, referring to the malleability or plasticity of the material during production; therefore, it can be cast, pressed or extruded in an endless variety of forms. "Plastic" is a highly versatile material allowing itself to be "modified" into any combination of properties to suit multiple aesthetic or mechanical requirements.

POLIPROPILENE/*POLYPROPYLENE*

Polimero termoplastico (comunemente indicato come PP) caratterizzato da un elevato carico di rottura in particolare viene utilizzato nello stampaggio ad iniezione

A thermoplastic polymer (commonly indicated as PP) characterised by a high tensile strength, it is used in particular in injection moulding.

POLIETILENE/*POLYETHYLENE*

Resina termoplastica (comunemente indicata come PE) la più semplice dei polimeri sintetici e la più comune fra le materie plastiche molto versatile ed economico in particolare viene utilizzato nello stampaggio rotazionale.

Polietilene verniciato opaco soft touch ottenuto grazie all'impiego di vernici acriliche opache all'acqua che conferiscono al prodotto una particolare resistenza all'usura, alla luce e agli agenti atmosferici oltre ad ottenere un aspetto estetico, e al tatto, morbido e "setoso" che si combina perfettamente con la proposta colore nei toni della pelle

A thermoplastic resin (commonly indicated as PE), the simplest of the synthetic polymers and the most common among plastic materials; very versatile and inexpensive, it is used in particular in rotational moulding.

Soft touch matt varnished polyethylene thanks to the use of water-based matt acrylic paints that give the product a particular resistance to the use, to the light and to atmospheric agents as well as an aesthetic appearance, a soft and "silky" touch that combines perfectly with the new colors in human skin tones

MATERIE PLASTICHE/*PLASTIC MATERIALS*

POLICARBONATO/*POLYCARBONATE*

Polimero termoplastico con una eccezionale qualità di trasparenza alla radiazione luminosa visibile e di resistenza all'impatto, in particolare viene utilizzato nello stampaggio ad iniezione.

A thermoplastic polymer with an exceptional quality of transparency to visible light radiation and resistance to impact, it is used in particular in injection moulding.

SAN/*SAN*

Copolimero con buone proprietà meccaniche, elevata rigidità e di resistenza ai solventi, in particolare viene utilizzato nello stampaggio ad iniezione.

A copolymer with good mechanical properties, high rigidity and resistance to solvents, it is used in particular in injection moulding.

ABS METALLIZZATO/*METALLIC ABS*

Polimero termoplastico (comunemente indicato come ABS) con caratteristiche meccaniche di resistenza all'impatto e durezza, in particolare viene utilizzato nello stampaggio ad iniezione o estrusione. La superficie in ABS viene "nobilitata" con un trattamento superficiale di metallizzazione ovvero la deposizione di un sottile film di metallo in condizione di vuoto per ottenere particolari aspetti estetici dall'aspetto brillante, riflettente e metallico in una svariata gamma di colorazioni.

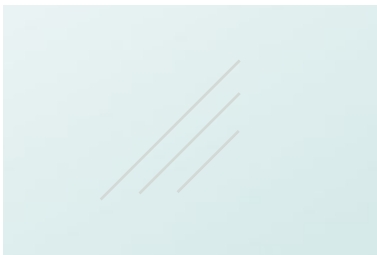

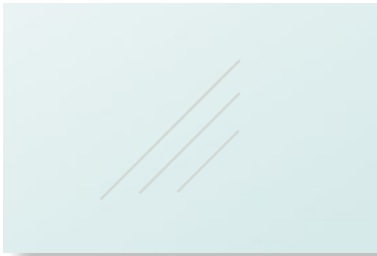

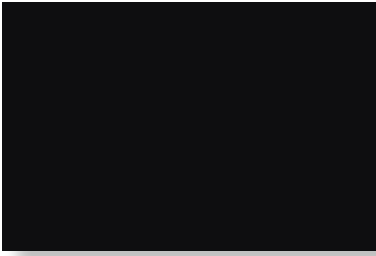

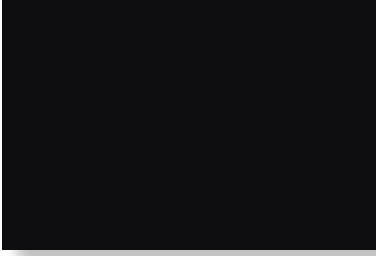

A thermoplastic polymer (commonly indicated as ABS) with mechanical characteristics of resistance to impact and toughness, it is used in particular in injection moulding or extrusion. The ABS surface is "ennobled" with a metallic surface treatment, namely by applying a thin film of metal under vacuum conditions to obtain particular aesthetic appearances, shiny, mirror and metallic, in a diverse range of colorations.

MATERIE PLASTICHE/*PLASTIC MATERIALS*

POLIURETANO RIGIDO/*RIGID POLYURETHANE*

Polimero termoindurente, è il risultato della reazione chimica di due sostanze base il poliolo e l'isocianato che miscelate fra loro creano una schiuma che solidifica a risulta una superficie compat a con un'elevata resistenza meccanica, viene utilizzato nello stampaggio "per colata".

A thermosetting polymer, it is the result of the chemical reaction of two basic substances, polyol and isocyanate, which are mixed together, creating a foam that, when solidified, forms a compact surface with a high mechanical resistance; it is used in "cast" moulding.

PELLI/LEATHERS

CAT. P - NIAGARA

Pelle bovina ai sali di cromo. Pigmentata - Fiore Corretto - Tintura all'anilina passante in botte. Spessore 1.4 - 1.6 mm

Test di infiammabilità: EN 1021-1 EN 1021-2, BS 5852 Source 0, BS 5852 Source 1, Cal TB117, NFPA 260/UFAC*

* Test eseguiti periodicamente sui campioni di pellame secondo il piano di audit annuale. Il processo di produzione standard garantisce la conformità al requisito.

Pulizia e manutenzione:

Evitare la luce diretta del sole. Evitare l'esposizione a fonti di calore. Spolverare regolarmente la pelle con un panno morbido ed asciutto. Eventuali macchie si possono eliminare usando un panno inumidito con acqua e sapone neutro. Asciugare immediatamente dopo il trattamento. Non strofinare e ma tamponare delicatamente dai bordi al centro della macchia.

Chrome tanned bovine raw hides. Pigmented - Corrected Grain - Aniline through dyed. Thickness 1.4 - 1.6 mm

*Fammability tests: EN 1021-1, EN 1021-2, BS 5852 Source 0, BS 5852 Source 1, Cal TB117, NFPA 260/UFAC**

** Tests are performed periodically on the leather samples in accordance with the annual audit plan. The standardized production process ensures compliance with the requirement.*

Cleaning and maintenance:

Avoid placing leather in direct sun. Keep the leather away from direct heat. Dust regularly with a soft and dry cloth. Spots can be cleaned with a lightly damp cloth and mild soap. Dry immediately after the treatment. Do not rub. Use a light circular motion working toward the center of the stain.

*Bovine of European origin. Chrome tanning - Aniline dyed - Semi aniline - Full grain. Thickness 1.0 - 1.2 mm
Flammability tests: BS 5852 1-2, EN 1021 1-2, TB 117-2013*

Cleaning and maintenance:

Avoid placing leather in direct sun. Keep the leather away from direct heat. Dust regularly with a soft and dry cloth. Spots can be cleaned with a lightly damp cloth and mild soap. Dry immediately after the treatment. Do not rub. Use a light circular motion working toward the center of the stain.

CONDIZIONI GENERALI DI VENDITA
GENERAL TERMS OF SALES

Condizioni generali di vendita

Assunzione del contratto

Ogni ordine viene accettato ed ogni fornitura viene eseguita alle condizioni generali di vendita sotto indicate, a meno che le deroghe siano state confermate per iscritto da Driade.

Prezzi

Nel presente listino i prezzi di vendita sono espressi in €. Nei prezzi di vendita non sono compresi gli oneri relativi alla progettazione, consegna e montaggio. In presenza di prodotti imballati in confezioni da più pezzi, è data facoltà di acquistare un singolo articolo con un prezzo di listino maggiorato di € 50 netto cad. La consegna dei Prodotti è effettuata presso il Luogo di Consegna alle condizioni riportate di seguito:

- Franco destino per ordini di valore imponibile superiore a € 999
- Addebito in fattura dell' 8% sul valore imponibile per ordini da € 501 a € 999
- Addebito in fattura di € 75 per ordini di valore imponibile fino a € 50

Le condizioni sopracitate sono valide per i seguenti paesi:

Italia, Francia, Spagna (escluse isole), Austria, Svizzera, Germania, Belgio, Lussemburgo, Paesi Bassi e Slovenia.

Per gli altri paesi consultare il Customer Service.

Per ordini superiori ai minimi indicati i prezzi sono comprensivi delle spese di imballo standard e di trasporto solo dove previsto. Per imballi speciali a richiesta del cliente sarà applicato un sovrapprezzo da concordare.

Termini di consegna

I termini di consegna esposti nelle conferme d'ordine sono puramente indicativi, non sono vincolanti e si riferiscono alla data di consegna allo spedizioniiere o al vettore.

Eventuali termini di consegna tassativi devono essere sempre evidenziati e confermati per iscritto.

I ritardi di consegna non daranno in alcun caso il diritto ad annullamento o riduzioni del contratto, né ad indennizzi di nessuna specie.

La ditta si riserva la possibilità di effettuare consegne parziali.

Consegne e trasporti

La consegna si intende valida ad ogni effetto anche se effettuata a mezzo spedizioniiere o vettore. La merce viaggia a rischio e pericolo del committente. Spetta al committente provvedere allo scarico, verifica e il numero dei colli e lo stato dell'imballaggio e fare le eventuali riserve al vettore o allo spedizioniiere. In caso di danno presunto la consegna è da assumere con riserva e va comunicata per iscritto entro sette giorni all'azienda. Nei casi che, dietro istruzione dell'acquirente, la merce venga consegnata direttamente a terzi, l'acquirente stesso rimane impegnato nei confronti del venditore a tutti gli effetti legali come se fosse lui il destinatario.

Tolleranze

I colori di campionario per stoffe, per laccature e per tutti i materiali impiegati sono soltanto indicativi, non essendo possibile tecnicamente assicurare la costanza di tinta a distanza di tempo. Il committente conferendo ordini, accetta tali tolleranze di colore.

Reclami

I reclami, di qualunque genere essi siano, dovranno essere fatti per iscritto. Obbligatoriamente entro sette giorni dal ricevimento della merce se relativi a danni di trasporto.

Annullamenti

Il compratore con la trasmissione dell'ordine resta impegnato verso il venditore, ma i contratti si intendono perfezionati e vincolanti per il venditore stesso solo in seguito a sua conferma scritta.

Se la conferma d'ordine non è contestata entro una settimana, si intende esplicitamente accettata. Trascorso tale termine, non si accettano annullamenti o modifiche di ordini già trasmessi.

Resi

Non si accettano resi di merce se non espressamente autorizzati per iscritto. Ogni reso avviene a rischio dell'acquirente.

Pagamenti

I pagamenti devono essere eseguiti secondo i termini indicati nella conferma d'ordine. La ditta si riserva il diritto di sospendere le consegne, in qualunque caso di inadempimento, anche parziale dell'acquirente agli obblighi assunti. I pagamenti devono essere effettuati al domicilio Driade, alle scadenze stabilite e per l'importo

pattuito. Il ritardo del pagamento, anche parziale, delle fatture oltre la loro scadenza dà luogo all'immediata decorrenza degli interessi al tasso ufficiale di sconto maggiorato di 4 punti. Il mancato pagamento a qualsiasi titolo autorizza Driade a sospendere ulteriori forniture. Per i pagamenti contro tratta o ricevuta bancaria, le spese di incasso e bollo si intendono a carico dell'acquirente.

Ritardo ritiro merce accettata

Nei casi in cui l'acquirente si rifiuti di accettare la merce in consegna o di ritirarla dalla fabbrica nei termini stabiliti, la merce fatturata rimane a disposizione dell'acquirente, che deve provvedere al pagamento nei termini indicati nella conferma d'ordine.

Riservato dominio

La merce fornita resta di proprietà del venditore fino al pagamento integrale delle relative fatture.

Validità del listino

Il presente listino annulla ogni precedente quotazione, non costituisce offerta e può essere variato senza preavviso.

Diritti

Tutti i diritti inerenti ai progetti e ai prodotti sono riservati. È pertanto vietato l'utilizzo dei marchi, dei nomi e dell'immagine dei prodotti e dei relativi listini prezzi e cataloghi, senza espressa autorizzazione scritta da parte della ditta.

Garanzia

Driade garantisce tutti i suoi prodotti presenti nei cataloghi per due (2) anni dalla data di fatturazione. La Garanzia Europea (Direttiva Europea 1999/44/CE) assicura tutti i clienti contro i difetti originali di produzione delle parti strutturali. Tale Garanzia include la sostituzione gratuita dei prodotti non utilizzabili o difettosi verificati e riconosciuti dal Controllo Qualità di Driade. La Garanzia non riconosce i danni causati dalla normale usura del prodotto, dall'utilizzo o trattamento inadeguato, incidenti o cause di forza maggiore. La Garanzia non sarà valida se i prodotti sono stati smontati, modificati o riparati da chiunque eccetto Driade. Qualsiasi riparazione effettuata e autorizzata da Driade, durante il periodo di Garanzia, non interrompe la validità della medesima. Pertanto, la Garanzia scadrà regolarmente dopo 2 anni dalla data della fattura.

Foro competente

Il foro competente per qualsiasi controversia è esclusivamente quello di Milano, senza possibilità di alcuna modificazione. I contratti, anche se stipulati con acquirenti stranieri e per materiali forniti all'estero, sono regolati dalla legislazione italiana.

Imbottiti

Calcolo del prezzo

I prezzi si riferiscono agli elementi rivestiti con un tessuto in variante unica. Nel caso di scelta di tessuti in più varianti nell'ambito della stessa categoria, oppure di categorie diverse, il prezzo da considerarsi per tutto il rivestimento è quello della categoria superiore tra quelle utilizzate.

Lavaggio

La gran parte dei rivestimenti utilizzati dal venditore è sfoderabile e lavabile.

Nonostante la massima attenzione prestata nella scelta delle stoffe, queste possono restringersi e variare di colore, se non sono lavate in modo appropriato.

Cuoio pelli e marmi

Segni ed imperfezioni del cuoio, della pelle e dei marmi non sono difetti, ma caratteristiche che ne attestano l'autenticità.

Altro

Cartelle campioni, foto, illustrazioni, schizzi etc. restano di proprietà del venditore e possono in ogni momento essere richieste in restituzione. Se uno o più punti di queste condizioni di vendita dovessero risultare non validi, ciò non va comunque ad intaccare la validità delle rimanenti clausole.

Articoli Outdoor in plastica

I mobili in polietilene ad alta densità non richiedono molta manutenzione e, nella maggior parte dei casi, non è necessario più di un leggero strofinamento per mantenerli come nuovi. Tuttavia, trattandosi di mobili da esterno, accumuleranno sporco, fango, cibo e polvere che lasciati sulla superficie possono trasformarsi in muffe o funghi: durante l'estate può formarsi se costantemente esposto alla luce solare diretta. Quando non in uso, dovrebbe essere tenuto in un'area ombreggiata quando possibile. I mobili da esterno di Driade possono sopportare la luce solare, ma è comunque importante cercare di mantenerli ombreggiati ogni volta che è possibile.

NB:

L'azienda è disponibile a fornire i soli rivestimenti, con termini e condizioni da definire in funzione delle commesse.

Le dimensioni (espresse in cm) e i prezzi si riferiscono al singolo articolo.

I pesi e i volumi si riferiscono alle confezioni.

La ditta si riserva il diritto di apportare modifiche di disegno e di materiali ai propri prodotti senza obbligo di preavviso.

I riferimenti RAL, PANTONE o DIC inseriti all'interno del listino, sono indicativi.

Il legno è un materiale unico in natura non replicabile e pertanto le immagini sono puramente indicative e potrebbero non rispecchiare appieno le caratteristiche estetiche delle finiture reali.

General terms of sale

Assumption

Every order is considered accepted and every delivery is made respecting the general terms set out below, unless any exception is officially confirmed in writing by Driade.

Prices

Prices are quoted in €.

Prices are not inclusive of charges related to the design, assembly or installation.

In case of products packed in several pieces, it is possible to purchase single items with a net surcharge of €50 each.

Products are shipped DAP under the following conditions:

- Free of charge for orders with a taxable value exceeding € 999
- Freight charge of 8% add to Invoice on the taxable value for orders from €501 to €999
- Freight charge of €75 add to Invoice for orders of taxable value up to €500

The above conditions are valid for the following countries:

Italy, France, Spain (excluding islands), Austria, Switzerland, Germany, Belgium, Luxembourg, the Netherlands, and Slovenia.

Please, refer to Driade Customer Service for all other countries. For orders above the minimum indicated prices are inclusive of standard packaging and transport costs only where provided. For special packaging at the request of the customer will be charged a surcharge to be agreed.

Order lead time

The lead time set forth in the order confirmations are only indicative, non-binding and refer to the date of goods collection at Driade warehouse by the freight forwarder. Any imperative deadline must always be communicated in writing by the customer and confirmed in writing by Driade.

Delays in delivery, in any case, will not give right to cancellation or reduction of the contract, or indemnities of any kind. The company reserves the right to make partial deliveries.

Deliveries and Transport

The Products shall be delivered in accordance with the procedures and in the places specified in the confirmed order. Unless otherwise agreed between the parties, the products will be delivered to the place of delivery in accordance with the following Incoterms:

- Delivery Duty Paid (DDP) in case of deliveries within Europe, Switzerland and UK territories. Driade shall pay the delivery from its factory to the place of delivery, export and import customs clearance and duties. Any other charges and/or other fees such as VAT are excluded and shall be paid by the customer. Upon goods receipt, the customer shall download them at its own risks and expenses.
- Ex-works (EXW) in case of deliveries outside Europe, Switzerland and UK territories. The customer shall pay any and all freight cost from Driade's factory to its own warehouse, export and import customs clearance, taxes, duties, and any other charges and/or other fees. It is Driade's responsibility for packing and loading the goods only. Therefore, it is necessary that the client always advise the means of transport. Once goods leave Driade warehouse, the risk falls on the customer.

Upon the goods collection (in case of EXW) and upon the goods receipt (in case of DDP), the customer shall verify the number of parcels and that the packaging is undamaged.

The customer shall always accept the goods delivery by signing conditionally the delivery note of the freight forwarder. In case of alleged damage, the customer shall add any eventual comment on the delivery note and shall notify Driade within seven (7) days.

If, as requested by the buyer, the goods are delivered directly to a third party, the buyer remains committed himself against the seller for all legal effects as if he were the recipient.

Tolerances

The colors of fabrics, lacquers and all materials used are only indicative, since it is technically impossible to ensure the consistency of color after some time. The buyer implicitly accepts these color tolerances.

Claims

The claims, of whatever kind must be made in writing within the terms below:

- Deliveries within the European Territory, including Switzerland and UK: within 7 days from the receipt of the products (as resulting from the relevant packing slip and delivery note);
- Deliveries outside the European Territory: within 2 months from the date of collection of the products at Driade's warehouse (as resulting from the relevant invoice).

Claims regarding any defective products shall be provided upon presentation of requested documents such as invoice and photos.

Cancellations

The buyer with the transmission of the order remains committed to the seller, but the contracts are finalized and binding on the seller himself only after his written confirmation. If the order confirmation is not contested by the customer within a week, it has to be intended explicitly accepted. After that time, Driade does not accept cancellations or changes to orders that have already been registered.

Refunds

title, will authorize Driade to suspend further deliveries. For payments against draft or bank receipt, collection charges and stamp duty are intended at purchaser's expense. Ownership of the products shall not pass to the customer until Driade has received payment in full of any amount due to by the retailer to the Driade for the Products.

Delay on collection of confirmed and accepted goods

If the buyer refuses to accept the delivery of the goods or to collect them from the factory within the prescribed period, goods will be invoiced and will remain available for the customer but he must arrange the payment in the terms specified in the order confirmation

Lien

The goods supplied remain a property of the seller until the complete payment of the related invoices.

Validity of the price list

This price list cancels all previous quotation, do not constitute an offer and may be changed without prior notice.

Rights

All rights related to projects and products are reserved. The use of trademarks, names and picture of the products, price lists and catalogs, without express written permission from the Company, is strictly forbidden.

Warranty

Driade cover all its Products in current catalogue with 2 (two) years of Warranty from the invoice date. This European Warranty (Dir. EU 1999/44/CE) ensures all our Clients against original defects in workmanship of the structural parts. The Warranty includes the free replacement of unusable or defective items verified and recognized by Driade Quality control. The Warranty does not cover damages caused by normal wear and tear, inadequate treatment or use, accident or force majeure. The Warranty will no longer be valid if the products are disassembled, modified or repaired by anyone except Driade. Any repairs made or authorized by Driade, under warranty, will not interrupt the warranty period. Therefore, the Warranty will still expire after two years from the date of the invoice.

Jurisdiction

The place of jurisdiction for any dispute shall be exclusively that of Milan, without the possibility of any modification. The contracts, even if entered into with foreign buyers and for materials supplied abroad, are governed by Italian law.

Upholstered items

Price calculation

The prices refer to covers in a fabric variant only. In case of more than one variant of fabric within the same category or among different categories, the price for the whole cover will be the highest one.

Wash

The most part of covers is removable and washable. Despite the utmost care taken in the choice of fabrics, these may shrink and change color if they are not washed properly.

Leather and marble

Signs and imperfections in leather and marble are not defects but features that attest its authenticity.

Tools

Samples folders, photos, illustrations, sketches etc. remain an exclusive property of the seller which at any time may requests to be returned. If ever one or more points of these sale terms will become invalid, this shall not affect the validity of the remaining provisions.

Plastic Outdoor Items

High-density polyethylene furniture doesn't require a lot of maintenance and in most cases, it won't need more than a gentle scrub to keep it looking like new. However, since it is outdoor furniture, it will still accumulate dirt, mud, food and dust that left on its surface can turn into mold or mildew. During summer it can become weaker or misshapen if constantly in direct sunlight. When not in use, it should be kept in a shaded area whenever possible. The stackability of plastic furniture makes this easy to achieve. Driade's outdoor furniture may have some sun protection, but it's still important to try to keep it shaded whenever possible.

Note:

The company is also available to supply the upholstery covers only, with terms and conditions to be defined according to orders.

The size (in cm) and the prices are for single item. The weights and volumes refer to the packed items. The company reserves the right to make changes in design and materials of its products without prior notice. RAL, PANTONE, DIC and colors references in the price list are purely indicative

Wood is a unique material in nature that cannot be replicated and therefore the images are purely indicative and may not fully reflect the aesthetic characteristics of the real finishes.
